

Scuba Cat Diving Internship Packages Phuket, Thailand

Tired of your job...

Looking for something different.....

Scuba Cat Diving Career Packages

Phuket, Thailand

Phuket; formerly known as Tha-Laang or Talang is one of the southern provinces (changwat) of Thailand. Neighboring provinces are (from north clockwise) Phang Nga and Krabi, but as Phuket is an island there are no land boundaries. The island is served by Phuket International Airport, located in the north of the island. The ph of "Phuket" is an aspirated hard "p", not a soft "f", so the name is pronounced (roughly) "Poo-get". The name Phuket is apparently derived from the word Bukit in Malay which means mountain or hill, as this is what the island appears like from a distance.

Before that its old name was Ta-lang (in Thai): The word is derived from the old Malay "Telong" which means "Cape", which is still in used for one of the main districts in the Phuket area.

Geography

Phuket is the biggest island in Thailand, located in the Andaman Sea, in southern Thailand. The island is mostly mountainous with a mountain range in the west of the island from the north to the south. The mountains of Phuket form the southern end of the Phuket mountain range, which ranges for 440 km from the Kra Isthmus. 70 % of the island is covered with forest. Phuket has several sandy beaches.

One of the most popular tourist areas on Phuket is **Patong Beach** on the central western coast, perhaps owing to the easy access to its wide and long beach. Most of Phuket's nightlife and its cheap shopping are located in Patong, and the area has become increasingly developed. Patong means, "the forest filled with banana leaves" in Thai

Other popular beaches are located south of Patong. In a counterclockwise direction these include **Karon Beach, Kata Beach, Kata Beach Noi**, and around the southern tip of the island, **Nai Ham Beach**. These areas are generally much less developed than Patong, and sought out by individuals, families and other groups with a preference for more relaxed and less crowded environs than Patong.

Scuba Cat Diving

Phuket, Thailand

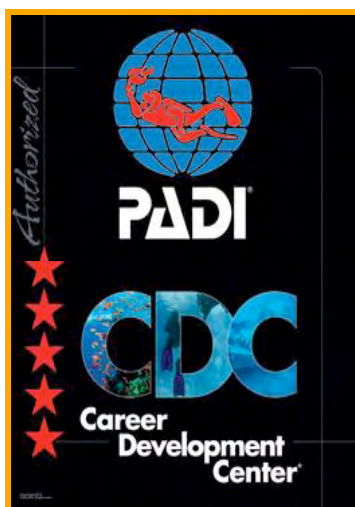

Scuba Cat Diving offers the most complete career packages in Thailand. We give the opportunity to our candidates to have a wide view of the dive industry. Diving is everywhere.

Mike Stark the founder started diving in 1974 in the cold water of Canada and decided to come to Thailand in the early 90's. Since beginning operations in 1992 Scuba Cat Diving has become Phuket Thailand's most complete. Now, Scuba Cat Diving is known worldwide for training quality and customer services and is a 5 Star CDC Centre awarded in 2007.

Sarah Kench, formerly a Senior Manager with HSBC in England, decided to change her life, came to Thailand in 1994 after spending several years diving in the cold water of England, and leading dive holidays to the Red Sea, Caribbean Islands, Dominican republic, Malaysia, Mexico, Indonesia and the Philippines, Upon starting work in the company she aspired to one day own Scuba Cat and this became a reality in 2007.

Scuba Cat Diving operates 2 liveaboards in the Similans, Surin Islands, and all the best dive sites in the Andaman Sea. One daytrip boat to the best dive sites around Phuket and Koh Phi Phi Island.

Technical diving is also taught at Scuba Cat Diving, DSAT Tec Rec, Trimix, and rebreather courses

Scuba Cat Diving is a PADI 5 Star CDC Instructor Development Center, we teach all the PADI Courses. PADI is the largest diving organization in the world. As a PADI professional diver you will find work in more than 180 countries in the world.

Let Scuba Cat Diving to take you through that wonderful experience.

With our Career Packages we will train you up from non-diver, or any level of diver, to PADI Divemaster or Instructor level and beyond. We offer All-Inclusive packages! There are no hidden charges. We include all the PADI courses, unlimited diving (boat diving, not from the beach), liveaboard experience, accommodation, and all your course materials, a full set of equipment and all the PADI fees. Plus you will gain valuable know-how along the way from our experienced instructors.

Why Scuba Cat Diving?

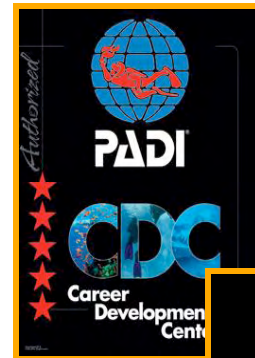

Scuba Cat Diving is a Career Development Center

The PADI Career Development Center classification is awarded to PADI Five Star IDCs and Gold Palm IDCs that conduct additional instructor-level training and meet the highest requirements for training dive leaders in reaching their educational and professional goals. PADI CDCs offer career-oriented training to prepare dive professionals for employment in the dive industry, as well as offering job placement assistance for program graduates.

These dive centers are well established businesses with proven success in training PADI Instructors. Because of the services offered, PADI 5 Star CDCs are places where candidates receive training to prepare them for careers in the dive industry. PADI divers, members, and the dive industry at large all benefit from the PADI 5 Star CDC's commitment to professional development and excellence.

Scuba Cat Diving has been a top level PADI 5 Star CDC Centre since 1997 training thousands of divers from beginner to instructor and won several AWARDS and was awarded CDC Centre in 2007.

You have different options for these programs, which depend if you are a non-diver or if you already have a certification. We have 6 different packages to propose you. We offer All-Inclusive packages! There are no hidden charges. We include up to 6 months of comfortable accommodation, unlimited diving, liveaboard experience, all PADI fees, all your course materials and a full-set of diving equipment from your first day. Plus you will gain valuable know-how along the way from our experienced instructors.

Outstanding Commitment to PADI System of Education in 2002

Outstanding Contribution for Instructor Development in 2001 and 2002

Certificate of Recognition for Excellence in 2003

Two Certificates of Recognition for Excellence in 2008

Finalist in the PADI Asia Pacific Member Awards in 2005

Project AWARE Foundation Achievement in 2006

PADI 5 Star Career Development Center in 2007

Platinum PADI Course Director in 2008

Training Facilities

If you are planning on learning to dive proper, convenient training facilities will go a long way in helping ensure you have a relaxed, enjoyable time while making the best use of your holiday time.

Scuba Cat Diving has a three story classroom centre and training pool next to our main shop in the centre of the action of Patong beach, you have a swimming pool as well for the professional levels, the is 20/20m, 65ft/65ft. On the classroom is dedicated to Professional levels. All the classrooms have air-conditioned, DVD player, TV and connection for your laptop computer.

GO PRO with Scuba Cat Diving

Boat Owner / Operators

The dive boat is an essential and extremely important element of your ocean experience and a dive centre operating its own vessels is better able to ensure your comfort, safety and enjoyment. Boat ownership is truly a mark of a superior, professional operation.

Scuba Cat Diving ownership has been involved in boating services in Phuket since 1990 and presently own and operate four dive vessels.

1. M/V Scuba Adventure – Liveaboard
2. M/V Scuba Cat - Liveaboard
3. M/V Scuba Fun – Daytrip boat
4. M/V Scuba Sport – Transfers/Daytrip

Free Dives/ Free liveaboard experience

Compared to other dive centers, Scuba Cat owns their own fleet of dive boats! Due to this, we offer to our Career Candidates, Liveaboard experience on one of Scuba Cat's own Liveaboard boats in the Andaman Sea and up to 200 Free Dives!!!

Environmental Issues

Protection and enhancement of the marine environment is a duty and obligation for all dive operators. They must show the way both by action, education and commitment in all activities.

Scuba Cat Diving has long led the Phuket dive community with active involvement in many environmental initiatives: sinking of Marla's Mystery creating Phuket's first artificial reef (Nov. 2000), this year celebrating the tenth anniversary being local coordinator for International Reef Clean-up day, Phuket's only active REEF CHECK team, active membership in both GREEN FINS and GO ECO projects and ongoing assistance with the Phuket Marine Biological Centre in conducting fish and coral surveys.

In addition, we are a PADI 5 Star CDC Center and became Phuket's first National Geographic Dive Center and Thailand's first Go Eco Operator. *We don't just talk about it- we do it!*

The International Ecotourism Society defines ecotourism as, "responsible travel to natural areas that conserves the environment and sustains the well-being of local people." This is important because tourism is the world's largest industry and is growing rapidly. This is good news for travel operators, but tourism can also hurt the natural ecosystem. Increased numbers of tourists require a larger infrastructure and can lead to serious pollution and degradation.

Scuba Cat Diving, Phuket Thailand is committed to environmentally responsible business practices and to providing our customers with dive experiences that enhance awareness of our local aquatic environment.

Scuba Cat Diving Staff

Staff

Scuba Cat Instructor team is very experienced, most all them are IDC Staff Instructors and Master Instructors and have been teaching for several years.

Our Platinum PADI Course Director, Christopher Pace. Chris started diving in the mid eighties in Europe. Before working in the dive industry, Chris used to work as an International Observer for the United Nations in countries such as Mozambique, Cambodia and South Africa. His main task was to implement civil education program, to teach local people how to organize elections and implement Human Right. His career as an instructor took him to wonderful places: Mexico, Belize, Honduras, Cayman Islands, Egypt, The Philippines, Sipadan, Borneo, Indonesia, Malaysia, Vietnam and for since 1998 in Thailand. The contacts I have made in all these years are very useful for my IDC candidates when they are looking for a job. Chris won many awards in the dive industry.

PADI Course Director since 2000
DAN Oxygen Instructor Trainer year 2000
MFA Instructor Trainer year 2000
PADI Specialty Instructor Trainer in 20 areas
PADI Emergency Instructor Trainer since 2003
PADI Nitrox Instructor Trainer
TDI Advanced Nitrox Diver year 1997
DSAT Tec Rec Diver

- More than 1200 Open Water Diver to Divemaster certifications
- Over 1200 Instructors at all levels and more than 4000 dives

Job Placement Service

We offer this service to our IDC and Divemaster candidates. The first step of your job search is to prepare a résumé, and then to place it on the Internet. There are lots of different sites specialized for diving and PADI has it's own website dedicated for it's members where you can find lots of job offers.

Directly at the end of the program we are going to help you set up your résumé, and look at which kind of job or position you are looking to apply for. There are lots of different techniques to finding a job. One of the most important things to find out is if you are going to fit into your desired position.

The Scuba Cat team has lots of different contacts around the world and in Thailand, so we will be pleased to give you all this information.

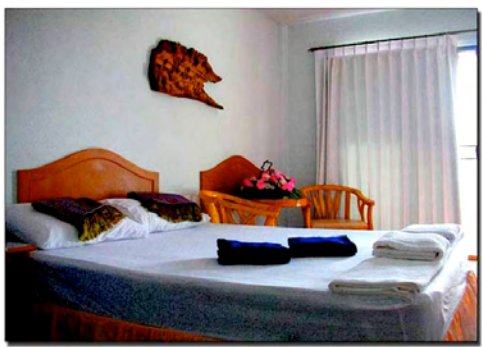

Finding a job in the dive industry is not very difficult. You just have to know what to do and how to do it. The Scuba Cat team is here to help you.

IE/IDC Pass Guarantee

Offered to all our IDC candidates, second IDC or extra training for free

Accommodation

Free Accommodation in air-conditioned private single room close to the dive center for all our candidates during the time of the IDC/IE.

Patong Alley Guesthouse is the alternative to expensive hotels in Patong Beach, Phuket Thailand. Offers large nicely decorated rooms, all rooms are fantastically well maintained, just as if they were brand new, and include air conditioning, color television, central hot water bathroom.

Well situated in a prime location, and almost anything you might desire is nearby. Many International restaurants are within just a few minutes walk; Thai, Italian, German, Swedish, Norwegian, and French to name but a few. The incredibly beautiful 'Patong Beach is just less than 1 minute away!

There are a number of so-called 'cheap hotels' in Phuket; however, they do not have the same quality of rooms or the excellent services that the Patong Alley Guesthouse provides.

A 12-Day expanded IDC

Although PADI requires an IDC to have a minimum duration of 7 days, we have found some extra presentations and workshops highly beneficial to our candidate success. To accommodate these extra presentations we have found a 10-day program more suitable.

Extra workshops include:

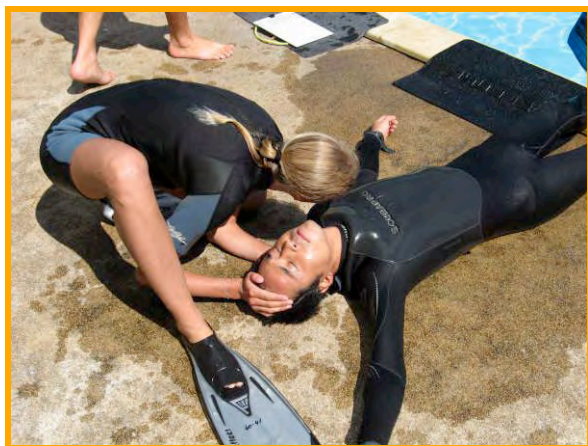

Ascents and Descents, Buoyancy control, Buddy Breathing, Controlled Emergency Swimming Ascent, Rescue exercises, students control and scenarios.

Planning, organizing, and scheduling all the PADI Courses in different environments.

With a relaxed, low stress 10 day IDC you can focus and elaborate on specific topics, review certain parts of the program, give extra time or lectures to our candidates.

The main focus of our program is to give the best knowledge to our candidates before they start teaching.

2 Remedial Days

We added these two extra days at the end of your program to give extra experience to our candidates for the IE and their future career.

The schedule for these two days:

1. Confined Water Presentation #5 and 6
2. Open water Presentation #5 and #6
3. Divemaster and Standards exams
4. Complete rescue workshop
5. Skills circuit
6. Any topic you want us to cover

with Scuba Cat Diving

Rebreather/Tec Deep/Trimix Packages

Technical diving comes with some of the most rewarding experiences in diving; we at Scuba Cat Diving Phuket, Thailand have a long history in technical diving.

Generally our courses are run on our liveaboard MV Scuba Cat. During high season MV Scuba Cat is in the Similans and during Low season MV Scuba Cat is moored at Racha Yai This experience will have you Eating, Sleeping and Breathing technical diving without distractions. Like anything you do in

life the best way to learn is to surround yourself in what you are doing, creating an enjoyable and memorable experience.

Scuba Cat Diving has a long experience with rebreather and technical diving

Mark Ellyatt a technical dive instructor based at Scuba Cat Diving Phuket, Thailand achieved the deepest ever-solo scuba dive recorded on Thursday 18 December 2003. At 6.30pm local time, Mark surfaced from the 313m (1032ft) dive and broke another barrier by completing the dive without any decompression illness symptoms. The conditions on the surface were described as perfect at the dive site almost 35 miles west of Phuket in the Andaman Sea.

Rebreather package

This is an ancient science that still to this day is far superior to any open circuit systems around! With no bubbles and sound created by "Darth Vader" open circuit regulators, this is a must for anyone who wants to be at one with the marine life, especially if you want to photograph the underwater world.

As one of the most fun and informative courses on offer you will learn how to fully set up and breakdown the unit along with a 1/2 day theory session on understanding rebreather diving along with three training dives.

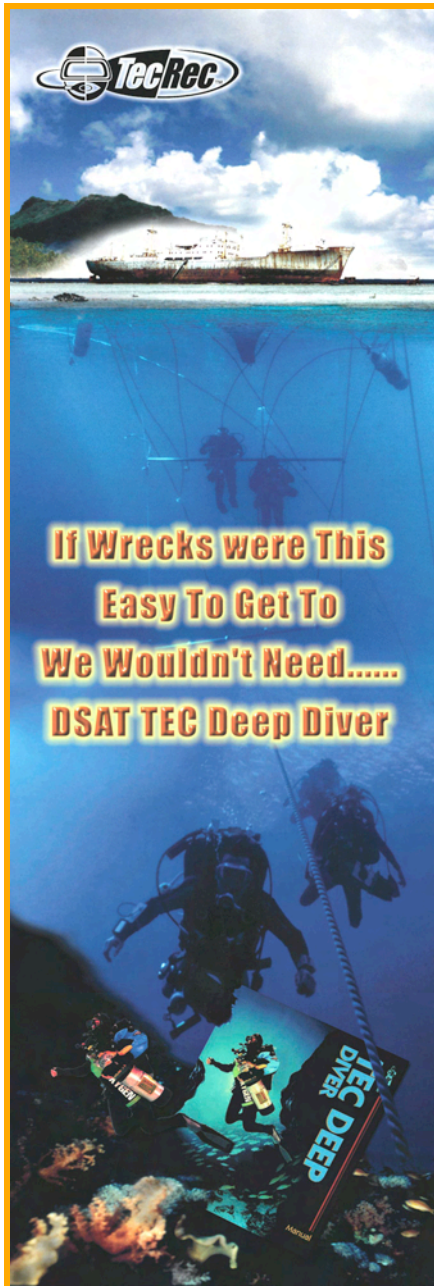

This package includes:

- **PADI Nitrox course**
- **PADI Rebreather course**
- **All PADI materials**
- **PADI fees included**
- **Possibility to upgrade the package to Instructor**

The price for this package is 30,000 THB

Tec Deep package

DSAT Tec Deep is the Foundation level of technical diving building theory and practical knowledge in which further education is based upon. You'll learn about advanced nitrox and the benefits of decompressing on oxygen enrichments above 40% and how the body reacts to high levels of oxygen exposure. You'll cover how important deep stops are and other topics like Calculating gas requirements and oxygen exposure for CNS and Pulmonary levels. During the training you will dive up to 50 meters.

The package includes:

- PADI Nitrox course
- PADI Deep Diver Specialty
- Gas blender
- PADI DSAT Tec Deep course
- Boat fees
- All PADI materials
- PADI Fees included

The price for that package is 72,500 THB

GO DEEP with Scuba Cat Diving

Trimix Package

DSAT Tec Trimix course is the pinnacle certification for diving to serious depths. The course depth at the end of the course is 75meters, but with more experience and time there are no depth limits!

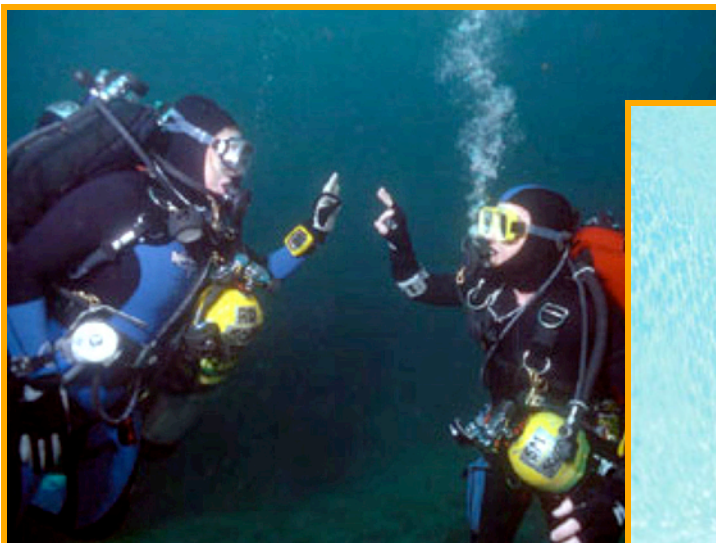

For the extreme diver ready to further explore the world of technical deep diving, the gas of choice is trimix. The DSAT Tec Trimix Diver course takes you to the outer edges of technical deep diving, opening the door to pristine dive sites few divers – if any – ever see.

This package includes:

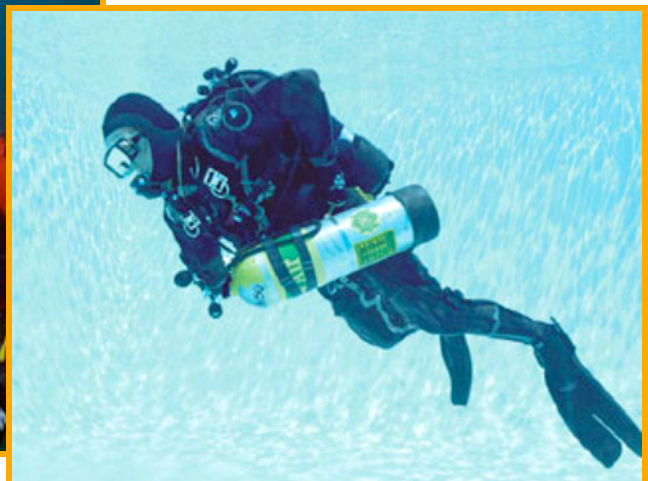

- Trimix Gas blender
- DSAT/PADI Trimix course
- All PADI materials
- PADI Fees
- Boat Fees
- Helium not included

The price for this package is
59,000 THB

* Depending on how many dives do you have?

Description of your courses

The PADI Open Water Diver

This diving course is the most popular program in the world. This certification will open more than 70% of the world, the underwater world. You will get a lifetime certification recognized in more than 180 countries.

This program is designed to teach you how to dive safely, The program is 4 days where you have 5 confined water sessions in the swimming pool, 4 Open Water Dives, the two first one at a maximum depth of 12 meters and the last two at 18 meters maximum and some knowledge development in the classroom to learn the dive tables, how to plan your own dive.

At the end of your course you will get a certification, this card is valid for the rest of your life. Now you are an independent diver. The course takes 4 days.

PADI Advanced Open Water Program

This program is for adventurous divers. You will discover the underwater world. This is the perfect program to expend your own knowledge, to find out about your interest in diving, to explore some of diving's top adventures.

The PADI Advanced Open Water Diver course has to offer to everyone.

You have to do five Adventure dives from the list below. From the five dives Deep and navigation must be included. The course takes 2 days.

Choose between these dives

- AWARE Fish Identification Dive
- Boat Dive
- Deep Dive
- Diver propulsion Vehicle Dive
- Drift Dive
- Multi Level and Computer Dive
- Night Dive
- Peak Performance Buoyancy Dive
- Search and Recovery Dive
- Underwater Naturalist Dive
- Underwater Navigation Dive
- Underwater Photography Dive
- Underwater Digital photography
- Underwater Videography Dive
- Wreck Dive
- Enriched Air Dive (Nitrox)

PADI National Geographic Diver Specialty Course

Continue the adventure with the PADI **National Geographic** Diver Specialty course. During the course, you join an elite group of divers who are more than tourists, but explorers, adventurers and conservationists.

As part of the National Geographic Diver Specialty course, you fine-tune your buoyancy, than set off on your *exploration project*. Whether it's a survey of plant life or a study of water temperature variation, this project is your chance to think, observe and document like those who dive for science and

discovery. . On your next dive you'll hone your navigation skills, than you'll dive into an aquatic life exercise – which may also be part of your exploration project.

PADI Rescue Diver

Challenging and rewarding best describes the PADI Rescue Diver course. This course will expand your knowledge and experience level. Rescue Divers learn to look beyond themselves and consider the safety and well being of other divers. Although this course is challenging, it is a rewarding way to build your confidence. Rescue Diver training will prepare you to prevent problems and, if necessary, manage dive emergencies. Many divers say this is the best course they've ever taken. The course takes 3 days. You'll cover:

- Self-rescue and diver stress
- Emergency management and equipment
- Panicked diver response
- In-water rescue breathing protocols
- Egress (exits)
- Dive accident scenarios

PADI Emergency First Response & Care For Children

Take a step toward emergency preparedness and meet PADI Rescue Diver prerequisites with Emergency First Response. As one of the foremost international CPR and first aid training companies, Emergency First Response gives you the confidence to respond to medical emergencies -- not just in the diving world, but also in your every day world with your family, friends, neighbors and coworkers too.

Emergency First Response courses encompass:

- CPR for adults, children and infants
- First aid for adults, children and infants
- Automated External Defibrillator (AED) training
- The Emergency First Response Instructor and Instructor Trainer courses

PADI Emergency Oxygen Provider Specialty course

Oxygen, water and food are fundamentally important to all animals. Of these three basic essentials for the maintenance of life, the lack of oxygen leads to death most rapidly.

First aid with emergency oxygen is useful or necessary as a treatment for many injuries, diseases and intoxications that interfere with oxygen reaching the blood or tissues.

You know how important oxygen is as a first aid measure for diving related emergencies. This course gives you the skills and confidence

needed to administer oxygen during an emergency in emergency.

PADI Master Scuba Diver

Join *the best of the best* in recreational scuba diving. Live the dive lifestyle and explore the underwater world like never before. Do it by becoming a PADI Master Scuba Diver – a rating that puts you in a class of distinction. You earn it by diving it, writing your ticket to endless adventure through the experience and training that set you apart as a PADI Master Scuba Diver. This program gives you lots of knowledge for the Divemaster and Instructor courses.

With the PADI Master Scuba Diver rating, you've reached the highest non-professional level in the PADI System of diver education. It means that you've acquired significant training and experience in a variety of dive environments.

- Minimum Number of Logged Dives: 50
- Minimum qualifications: PADI Rescue Diver or Junior Rescue Diver (or qualifying certification from another training organization), 12 years old, five PADI Specialty Diver certifications.

You have the choice between all the specialties:

- AWARE Fish Identification Specialty
- Boat Specialty
- Deep Specialty
- Diver propulsion Vehicle Specialty
- Drift Specialty
- Multi Level and Computer Specialty
- Night Specialty
- Peak Performance Buoyancy Specialty
- Search and Recovery Specialty
- Underwater Naturalist Specialty
- Underwater Navigation Specialty
- Underwater Photography Specialty
- Underwater Digital photography Specialty
- Underwater Videography Specialty
- Wreck Specialty
- Enriched Air Dive (Nitrox) Specialty

PADI Divemaster Course

The PADI Divemaster program is your first step leadership level in the PADI System of diver education. This rating denotes you as a person who:

1. Has a high level of personal diving skill.
2. Has instructor level knowledge of diving theory.
3. Has had significant training in how to assist an instructor during training activities.
4. Is able to assume appropriate responsibilities that benefit the welfare of other divers.

As you may know, many PADI Divemasters go on to become PADI Instructors. So, the training and experience you gain through the PADI Divemaster program helps shape your abilities and attitude toward becoming a professional level diving educator.

As a PADI Divemaster, you'll be qualified to:

- * Supervise training and non-training – related activities by planning, organizing and directing dives.
- * Assist a Teaching status PADI Instructor on any PADI course
- * Guide PADI Open Water Diver course students during the tour portion of the dives 2, 3, and 4 under the direct supervision of an Instructor
- * Teach the PADI Skin Diver course and the PADI Discover Snorkeling program
- * Conduct a PADI Discover Local Diving program
- * If qualified as a PADI Discover Scuba Diving leader, independently conduct PADI Discover Scuba Diving in a pool or in confined open water
- * Teach Emergency First Response courses after successfully completing an Emergency First Response Instructor course.

with Scuba Cat Diving

GO PRO

You'll complete three phases in the PADI Divemaster program:

1. Waterman ship and skills assessment Waterman ship and stamina General diving skills
2. Knowledge Development

- Supervising students divers in training
- Dive management and control
- Diving physics
- Diving physiology
- Diving skills and environment

- Diving equipment
- Recreational dive planners
- Dive planning
- Emergency assistance plan
- Mapping a local open water site

3. Practical Application this involves training activities using various structured training sessions, simulated scenarios and internship sessions with actual PADI programs. These training sessions enable you to gain practical experience as an instructional assistant and a supervisor of open water diving activities, both as a coordinator and as an underwater guide.

Upon successfully completing the PADI Divemaster program, you'll receive a certification card and wall certificate denoting this rating. You'll also become a member of PADI and receive benefits, including the ability to purchase professional liability insurance (which may be required to conduct some activities).

PADI DIVEMASTER COURSE

PADI Instructor Development Course

The Instructor Development Course (IDC) is a 10-day training program, which teaches you how to instructor recreational scuba diving.

During the IDC you will use the latest teaching techniques, the complete system of PADI support materials, and will be continuously assessed on your teaching and presentation skills...

Scuba Cat has been a PADI Instructor Development Centre since 1997 and in 2007 a PDI 5 Star Career Development Centre, the highest rating for a dive centre. Classes for the instructor level programs are kept to sensible hours, to allow you to have a few hours of relaxation time each evening. Although PADI requires an IDC to have a minimum duration of 7 days, we have found some extra presentations and workshops highly beneficial to our candidate success. To accommodate these extra presentations we have found a 10-day program more suitable and the end of the IDC we have added 2 remedial days.

Extra workshops include:

Ascents and Descents, Buoyancy control, Buddy Breathing, Controlled Emergency Swimming Ascent, Rescue exercises, students control and scenarios.

Planning, organizing, and scheduling all the PADI Courses in different environments.

With a relaxed, low stress 10 day IDC you can focus and elaborate on specific topics, review certain parts of the program, give extra time or lectures to our candidates.

The main focus of our program is to give the best knowledge to our candidates before they start teaching.

At the end of your IDC and the 2 remedial days, you have to do the PADI Instructor Examination. The IE is on three days. We are evaluated on different presentations and exams.

2 Remedial Days

We added these two extra days to our program to give extra experience to our candidates for the IE and their future career.

The schedule for these two days:

1. Confined Water Presentation
2. Open water Presentation #5 and #6
3. Divemaster and Standards exams
4. Complete rescue workshop
5. Skills circuit
6. Any topic you want us to cover

PADI Emergency First Responder and Care For Children Instructor

This program will show you how to teach PADI new first aid courses Emergency First Response Primary Care (CPR), Emergency First Response Secondary Care and Care For Children. As a PADI Instructor you will be teaching several courses that will require your students to have first aid and CPR training. By qualifying as an EFR Instructor, you will be able to teach your students yourself. Why run the risk of losing your customers to another PADI instructor?

The Emergency First Response Care for Children course is an innovative CPR, first aid and AED training course that teaches people how to provide emergency care for injured or ill children (ages one to eight) and infants less than one year old. During this course, you'll learn how to teach your students about medical emergencies that children face and how they differ from adult conditions. The curriculum also includes the importance of attending to basic emergency situations with children, the emotional aspects of caring for children, secondary care for children, and preventing common injuries and illnesses in children.

PADI Emergency Oxygen Provider Instructor course

As dive professionals, you know how important oxygen is as a first aid measure for diving related accidents.

Remember to deliver oxygen you must certify.

This course can be easily integrated with the PADI EFR and the PADI Rescue course.

With this course, your students are allowed to deliver oxygen in a case of emergency.

EMERGENCY

COURSES

PADI Specialty Instructor

A PADI Specialty Instructor dives more, has more fun and teaches about favorite subjects. Don't see a specialty on a subject that interests you? Write your own specialty! It's easy and it gets you teaching divers about things you like. Whether it's Ice, Deep, and Photography, Wreck, Rebreather, Enriched Air Nitrox or one of your own, PADI Specialty Instructors are out there diving and training. Join the fun. A Specialty Instructor has more to offer when he/she is looking for a job.

To be able to teach specialties gives you a greater credibility to find a job and to carry on your interest in diving.

You have the choice between all the specialties:

- AWARE Fish Identification Specialty
- Boat Specialty
- Deep Specialty
- Diver propulsion Vehicle Specialty
- Drift Specialty
- Multi Level and Computer Specialty
- Night Specialty
- Peak Performance Buoyancy Specialty
- Search and Recovery Specialty
- Underwater Naturalist Specialty
- Underwater Navigation Specialty
- Underwater Photography Specialty
- Underwater Digital photography Specialty
- Underwater Videography Specialty
- Wreck Specialty
- Enriched Air Dive (Nitrox) Specialty|
- Rebreather Specialty

Rebreather course

The new 2 day PADI Rebreather Diver program is the entry level course for recreational divers wishing to utilize Nitrox Semi-Closed Circuit Rebreather systems. This Specialty course introduces the planning, organization, procedures, potential problems and hazards of semi-closed rebreather diving. It is specific to the features, accessories, maintenance and proper use of the Dolphin/Atlantis semi-closed rebreathers. A pool orientation and 3 Draeger Dolphin open water dives are included.

Rebreather Diving = Silent Diving

PADI Deep Diver Specialty Course

The Deep Diver Specialty course offers you the opportunity of a lifetime - going deep to see things others can only dream about. While earning this scuba diving certification, you'll learn deep dive planning, organization, procedures, techniques and hazards. You'll also put this knowledge to the test as you go on four open water dives that range from 18 - 40 meters / 60 - 130 feet.

PADI Enriched Air Specialty Course

Maximize your time with the upgraded PADI Enriched Air Diver course. Enriched Air Diver saves you time by allowing you to: Stay underwater longer. Get back into the water sooner.

- Two dives and Theory

DSAT Gas Blender

More people are diving with enriched air and this means the demand for enriched air fills is also increasing. However, there needs to be someone qualified to administer these fills to meet this demand. This is where the DSAT Gas Blender course comes in.

Trimix Gas Blender

The DSAT Gas Blender course will train you as a qualified gas blender, allowing you to provide gas mixes to appropriately certified consumers. You'll learn the physical properties of oxygen, its associated hazards, handling requirements and what cleaning equipment is necessary. Finally, you will learn the five methods of obtaining the desired enriched air nitrox mix and the various methods used to obtain proper helium mixes.

Internship and Master Scuba Diver Trainer rating

Scuba Cat offers a unique work experience program. We give you the opportunities to team teach with our senior instructor for a period from 4 to 6 weeks.

Observing a senior instructor conduct courses is as valuable as the IDC itself. You will team teach diving courses from beginner to Divemaster levels. The Work experience program begins by first observing different senior instructors conduct their diving courses, and then begin to teach independently.

A Senior Instructor will follow on your courses assessing you as well as providing you with tips and hints that will make your courses more fun and effective both for your students and you the Instructor.

By the end of the work experience you will have certified at least 25 students and be a Master Scuba Diver Trainer

PADI IDC Staff Instructor

As a seasoned PADI Instructor, you have wisdom and experience to share with up-and-coming PADI leaders. And, you know that continuing your education never ends. As an Instructor Development Course (IDC) Staff Instructor, you help bring up the next generation of PADI Instructors while gaining in-depth instructor-trainer knowledge. Because IDC Staff Instructors are an integral part of the PADI IDC, you set the stage for moving on to PADI Course Director as you present topics in the IDC and help shape PADI Divemasters and Assistant Instructors into PADI Open Water Instructors.

In addition to all the courses you can teach as a PADI Instructor, you can also:

- Teach PADI Assistant Instructor courses.
- Assist PADI Course Directors in conducting the PADI Instructor Development Course.
- Assist PADI Course Directors in conducting instructor-level continuing education
- Become EFR Instructor Trainer

Increase your employment opportunities

The Work experience program increases your chances of employment. Instructors who have completed the Work Experience have found employment on Phuket or other places in Thailand or anywhere around the world in a very short time. By team-teaching with several different instructors through the internship, you will have a large collection of different approaches to adapt to your own teaching style.

During your Work Experience program you will help you how to set up a resume and show you how to find a job.

PADI DSAT Tec Deep Diver Course

The DSAT Tec Deep Diver course takes you past recreational diving and immerses you in the world of technical diving. After successful completion of the DSAT Tec Deep Diver course you'll be able to conduct gas-switch extended no-decompression dives, decompression dives and accelerated decompression dives using air and enriched air to a depth of 50 metres/165 feet. You'll also understand the hazards and risks involved in technical diving, as well as how to prepare for and handle reasonable foreseeable technical diving emergencies.

The practical side of DSAT Tec Deep teaches you how to dive with twin sets and the use of deco tanks and also how to gas switch safely from your back set while decompressing.

Deploying your SMB will become an art form at depths that will boggle your mind. This course also requires you to master.

the use of deco software and calculate deep stops during the 12 training dives

PADI DSAT Trimix Course

The practical side demands pinpoint accuracy when it comes to buoyancy control with up to 4x DECO cylinders. There will be more decompression stops on the dives, which means more time underwater for problems to occur. This course demands mastery of ALL skills, with no exceptions!

Self-study is the key to success. The theory teaches you the importance of Helium and how it affects our physiology. Hypoxia comes into play and travel gas is introduced and so logistics of calculating gas consumption and calculating CNS & OTU's becomes more taxing.

THE REWARD

You can go where no one else has been before and see things that no one else has seen! Are you up for the challenge?

Equipment included in your Internship package

BCD	Scuba Pro	T-One
Regulator	Scuba Pro	MK 2 plus + R 190
Octopus	Scuba Pro	R 190
Console	Scuba Pro	VIP 2
Computer	Suunto	Gekko
Compass	Suunto	SK 7
Wetsuit	Deep Blue	Unisex 3 mm Shorty
Mask	Scuba Pro	Marin 2
Snorkel	Deep Blue	Stingray
Fins	SeacSub	Propulsion
Booties	SeacSub	High Boots w. Zipper 5 mm
Torch	Deep Blue	LED 3 Watt
Knife	Seako Dive	Folding Knife
U/W Slate	Deep Blue	With quick connector 15x13 cm
Safety Balloon	Deep Blue	SMB w/bag
Reel	Seako Dive	Wreck Reel 45 m (Alu)
Gear Bag	Deep Blue	90 Liters 70x35x35 cm

Scuba Pro Regulator set

MK2 PLUS First Stage

- The workhorse "Simple reliability"
- Standard piston technology
- TIS thermal insulation system
- 4 low-pressure ports
- Single high-pressure port

VIP 2 Console

- Compact, yet easy to read
- Ideal for traveling
- Pressure gauge
- Depth gauge

R190 Second Stage

- Classic downstream valve
- Designed for rental and training facilities
- Diver adjustable VIVA
- Reversible low-pressure hose attachment
- Extremely lightweight compact
- Redesigned classic purge
- Food grade PVC mouthpiece

R190 Octopus

- Derived from legendary R190
- Improved airflow properties
- Features 100cm hose
- Same features as R190 2nd stage

BCD, Computer, Compass, Dive Gear Bag and Wetsuit

Scuba Pro T-One BCD

- 1000 Denier Cordura exterior
- 420 Denier Nylon interiors
- Advanced cummerbund adjustment system w/extended
- Velcro for extra waist size
- 3 welded valves perfect for the rental market
- Balanced Power Inflator (BPI)
- Comfortable soft anti slip backpack
- Easy carry handle on backpack
- 2 Velcro flap pockets
- Standard tank band system for teaching

SK-7 Wrist Compass

The Superior SK-7 compass features an exceptional tilt potential of +/-30 degrees to read graphics, a wide console window and firm grip bezel ring with ratchet

GEKKO Wrist Computer

- Air/Nitrox operating modes
- Complete deco stop data
- 50-hour profile memory
- 50-hour logbook memory
- Lifetime history memory
- Multi step ascent rate indicator
- Personal adjustment
- Altitude adjustment 0-3000m
- Auto safety stop countdown
- Extended deco range (ceiling, floor)
- Calendar clock
- User-replaceable battery
- Phosphorescent display illumination
- Depth display range 0-99m
- Audible alarms
- Max. Depth/dive time alarm
- Display shield
- User-selectable metric or imperial units
- Suunto RGRM

Deep Blue Dive Bag

- Oversize 90 liter bag
 - 70x35x35 cm
- Color red or black

Deep Blue wetsuit

- Unisex 3 mm
- Shorty

**POSSIBILITY TO UPGRADE
THE ITEMS OF YOUR
EQUIPMENT PACKAGE**

Wetsuit, Mask, Snorkel, Fins, Booties, Torch, Knife, U/W Slate, SMB, and Reel

Scuba Pro Marin 2

- Soft-touch frame – Exclusive paint process
- Twin lens – low volume design
- Open Side Frame – better peripheral

Deep Blue Stingray

- Dry snorkel design
- Comfortable mouthpiece
- Flexible silicone extension
- Lower purge valve

Seako Dive knife

- Stainless Steel 10cm sharp blade folding knife
- No rust, durable blade
- Lanyard included for easy connections
- Sharp tip, serrated edge plus line cutter

SeacSub Propulsion

Lightweight, comfort, easy fit and excellent thrust power: these are the special features of PROPULSION, the new generation open-heel fin

SeacSub Booties

- 5 mm
- High boots w. Zipper

Deep Blue Torch

- 3 Watt LED flashlights
- Soft rubber over molding around the handle for slip-free use

Deep Blue SMB

- 6-meter line
- Bag
- Connector

Deep Blue Slate

- Quick connector
- Pencil
- Eraser
- Slate 15 x 13

SeacSub Wreck Reel

- 45 meters line
- Aluminum
